BeEmpowered Before the Snow Flies!

Clean energy workshops to be held across the region this fall

This fall, Southern Tier residents will have the opportunity to 'BeEmpowered' to make informed decisions about their home's energy usage at four workshops in Broome, Tioga, Chenango and Chemung Counties. Participants will learn useful energy saving tips and hear about opportunities to reduce their utility bills, and make their homes safer and more comfortable while contributing to a healthier environment.

Participants will learn about current New York State and Federal Incentives for home energy assessments, solar energy options, and air and ground source heat pumps. Questions about energy services companies (ESCOs) - providers of electricity distributed by NYSEG - will also be addressed.

Refreshments will be available, and a raffle for a door prize will take place.

WHAT

Clean energy workshops addressing a range of affordable energy efficiency options for your home.
